

ACTIVITIES ALLOWED IN BUSINESS PARKS

- Audio/Video Product Design
- Automation Equipment & Systems Design
- CAD/CAM/CAE Support
- Communication Equipment Design
- Computer-related Services
- Computer System Integration
- Computer Systems Design
- Development/production of Software, Maintenance of Software and User Training
- Diagnostic Product Design e.g. Medical, Biotech
- Electric Motors Design
- Electrical Appliances & Devices Design
- Electronic Control Systems Design
- Electronic Instruments & Device Design e.g. IC
- Engineering Design & Development Centre
- Equipment & Component Applications Engineering
- Factory Automation/CIM Design & Development
- Fashion, Furniture, Jewellery & Exhibition Design
- Geological Analysis on Well Samples and Rocks
- Hybrid Circuit Modules Devices Design
- Industrial Training
- Information Systems Design & Development

- Materials Application Centre
- Mechatronics Components Design & Development
- Office Automation Equipment Design
- Offshore Structure Design
- Oil Rig Design
- Opto-electronics Devices Design & Development
- Plastic Product Design & Development
- Product Demonstration
- Production Planning, Technology & Engineering Development
- Projection Planning & Management
- Prototype Making
- Publishing
- Quality Assurance, Technical Inspection & Testing Services
- R & D Laboratory
- Ship Design
- Storage Device (Disk Drives) Design & Development
- Systems Customising Centre
- Technical Service Centre
- Tooling Design
- Upgrading of Software
