

## Annex 12

### **List of Activities that are Compatible with Food Industries**

Change/extension of use will require further assessment if your proposed usage falls outside this list, and your premises is located within 100 metres from the Food Zone (*Annex 4*).

1. Manufacture of food products (factories not having scheduled boilers):-
2. Blending of flavours and fragrances.
3. Manufacture of jewellery and related articles – very small-scale jewellery electroforming operations could be allowed in flatted factories that are used for light industries.
4. Manufacture of electrical apparatus and supplies, not elsewhere classified.
5. Manufacture of professional, scientific, measuring and controlling equipment, not elsewhere classified.
6. Manufacture of musical instruments.
7. Manufacture of sporting and athletic goods (not involving woodworking or electroplating operations) – woodworking operations should not be allowed
8. Manufacture of cutlery, hand tools and general hardware.
9. Manufacture of emergency lighting and power supply systems.
10. Blending of detergents and cleaning preparations, perfumes, hair-care products, cosmetics and other toilet preparations.
