In October, JTC teamed up with Dunearn Secondary School and Hong Kah North Organisation for the Hong Kah Home Improvement Project. Organised by the Hong Kah North Community Club Youth Executive Committee, the project drew about 80 volunteers who were eager to help redecorate the homes of ten low-income families and transform them into an environment that was more conducive for the children to study.

Arriving early on a Saturday morning, the volunteers immediately got down to painting, assembling furniture and carrying out assigned housekeeping duties. Volunteers also helped to keep the children occupied while their rooms were being renovated. The children attended a sandwich-making workshop and designed cards of appreciation to present to their parents.
